Dock Builders Supply Take-A-Part Mooring Whips

Assembly Instructions

1. Each Take-A-Part Whip Pole consists of (2) two parts, the Tip Section and the Base Section.
 2. Insert the Base Section of the Whip Pole into the Coupler, align the Blue Line on the Whip Pole with the Set Screw on the C Coupler and tighten Set Screw with the Allen Wrench supplied.
 3. Insert the Tip Section of the Whip Pole into the Coupler. Align the Blue Line on the Whip Pole with the Set Screw on the Coupler and tighten Set Screw with the Allen Wrench.
 4. Repeat process so both poles are now assembled.
 5. After assembling the Whip Poles, place the Whip Poles in the *Whip Bases with the Set Screws facing the water.
- For complete instructions on installing Whip Bases, please refer to the Dock Builders Supply Mooring Whips Installation Instructions.
